

A VIET-THAI FUSION

MENU

*Not all Phở
are created equal...*

Crafted with passion.. Our signature Pho broth is slow-simmered with pressure-cooked beef bones—unlocking rich, savory depth and essential nutrients like collagen to support joint health, digestion, and overall wellness in every bowl.

STARTERS

Pressure-Cooked Bone Broth Pho: Quality You Can Taste

Unique Cooking Method: Utilizes a modern pressure-cooking technique instead of traditional long-simmering for the pho broth.

Superior Broth Quality: This method produces an exceptionally clear, aromatic, and rich broth that is free from heavy grease and cloudiness.

Enhanced Nutrition: The process retains more natural collagen and minerals, making the broth both flavorful and nourishing.

Health Benefits: The broth is described as supporting digestion, joint health, and the immune system.

Commitment to Freshness: Broth is always prepared fresh in small batches to ensure quality.

No Compromises: Avoid powdered bases and mass-production methods, focusing on authentic, high-quality ingredients.
